 **Private Securities litigation reform act safe harbour statement**

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and 21E of the Securities Exchange Act of 1934, as amended, that are intended to be covered by the safe harbour created by such sections. All statements other than those of historical facts included in this presentation are forward-looking statements including, without limitation, (i) estimates of future earnings, and the sensitivity of earnings to the gold and other metals prices; (ii) estimates of future gold and other metals production and sales, (iii) estimates of future cash costs; (iv) estimates of future cash flows, and the sensitivity of cash flows to the gold and other metals prices; (v) statements regarding future debt repayments; (vi) estimates of future capital expenditures; (vii) estimates of reserves, and statements regarding future exploration results and the replacement of reserves; and (viii) statements regarding modifications to the Company's hedge position. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, gold and other metals price volatility, currency fluctuations, increased production costs and variances in ore grade or recovery rates from those assumed in mining plans, as well as political and operational risks in the countries in which we operate and governmental regulation and judicial outcomes. For a more detailed discussion of such risks and other factors, see the Company's latest Annual Report on Form 20-F for the year ended June 30, 2007, which is on file with the Securities and Exchange Commission, as well as the Company's other SEC filings. The Company does not undertake any obligation to release publicly any revisions to any "forward-looking statement" to reflect events or circumstances after the date of this presentation, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

20

The journey in Q2

21

Randfontein uranium

- Agreement between Randfontein and Pamodzi Resources Fund (PRF) signed December 2007 for sale of assets to Newco for US\$420 million
- PRF to acquire 60% shares and claims in Newco for US\$252 million
- Harmony to retain 40% shareholding
- Newco board of directors identified
- Mr Ndaba Ntsele appointed Newco chairman

22

23

- Production structure changed from coaches to mine captains/shiftbosses – as traditional mining structure
- Services personnel decentralised to re-establish responsibility and accountability at correct levels
- Conops at Masimong ceased
- Continual evaluation on other operations underway
- St Helena operations put on care and maintenance
- Evander 7 downscaled (sill breakthrough more extensive than previously believed)

24

Complement reduction

- Reduction of 2 123 employees, and
- Reduction of 2 827 contractors bringing total reduction to 4 958
- 4 859 employees transferred to more profitable operations, replacement of contractors
- Decentralisation reduced employees by 700
- Closing of St Helena (C&M) shafts and moving 650 employees to more efficient shafts
- Reduction of 1 396 employees and contractors as result of Conops termination at Masimong
- Phakisa and Doornkop building up in employees numbers

25

PNG partnership

- Harmony's preferred approach
 - partner across all PNG assets
 - to retain 50% equity interest
- Shortlist compiled of possible suitable partners
- Announcement of partner imminent

26

Gold - an exciting place

	Last six months	Next six months
- Cash cost	R133 000/kg	R133 000/kg
- Gold price	R163 000/kg	R223 000/kg *
- Margin	R 30 000/kg	R 90 000/kg

- Cost-consciousness is being re-institutionalised
- New and efficient operations are being developed
- Cash cost decrease with high-quality mines coming on stream

* Gold price = \$930, ZAR7.45=\$1

27

Future strategy

- Operations to improve safety performance
- Focus on long life (10 years or more) operations and profitability
- Investigate ways of recapitalising short life operations
- Focus on core mining projects and expand the pipeline
- Partnering to enhance growth of international projects
