NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE PERIOD ENDING 30 SEPTEMBER 2007

1. Basis of accounting

The condensed consolidated interim financial statements for the period ended 30 September 2007 have been prepared using accounting policies that comply with International Financial Reporting Standards (IFRS), which are consistent with the accounting policies used in the audited annual financial statements for the year ended 30 June 2007. These condensed consolidated interim financial statements are prepared in accordance with IAS 34, Interim Financial Reporting and should be read in conjunction with the financial statement as at and for the year ended 30 June 2007.

New accounting standards and IFRIC interpretations
Certain new accounting standards and IFRIC interpretations have been published
that are mandatory for accounting periods beginning on or after 1 January 2008.
These new standards and interpretations have not been early adopted by the
Group and a reliable estimate of the impact of the adoption thereof for the
Group cannot yet be determined for all of them, as management are still in the
process of determining the impact thereof on future financial statements.
At the date of finalising of these financial statements, the following
Standards and Interpretations were in issue but not yet effective:

Title Effective date

New Statement

 \cdot IFRS 8 Operating segments # Financial year commencing on

or after 1 January 2009

Amendments

• IAS 23 (Revised) Borrowings Costs # Financial year commencing on (Revised March 2007) or after 1 January 2009

New Interpretation

• IFRIC 12 - Service Concession Arrangements # Financial year commencing on or after 1 January 2008

Not yet assessed

2. Cash operating profit

The format of the income statement is now presented `by nature' as per the requirements of IFRS 5. The major differences is that `cash operating costs' and `cash operating profit' are not reflected on the face of the income statement anymore. `Cash operating costs' are now included under `Production costs'.

If no change was effected, the cash operating profit would have been as following:

	30 September	30 September
	2007	2006
	R million	R million
Revenue	2 489	2 380
Cash operating costs	(2 078)	(1 589)
Cash operating profit	411	791

3. Gain/(loss) on financial instruments

The Australian gold hedge book was closed out during the June 2007 quarter, leaving only the Abelle Limited forward exchange contract that resulted in a marked-to-market gain of R4.4 million.

4. Investment in associate

Harmony accounted for its 29.2% stake in Western Areas Limited through its subsidiary, ARMgold/Harmony Joint Investment Company Pty Ltd, on the equity basis for accounting until 1 December 2006. On this date Harmony excepted Gold Fields Limited's (GFI) offer of 35 GFI shares for every 100 Western Area Limited shares held. The remaining investment in the Goldfields shares were sold during the September 2007 quarter for a loss of R459 million, refer to note 5.

11. Subsequent events

On 25 September 2007, Harmony Gold Mining Company Limited announced that it had entered into an agreement with Pamodzi Gold Limited (Pamodzi), where Pamodzi will render management services to ARMgold, with respect to the Orkney shafts. The commencement date was 25 September 2007 and the termination date is the earliest of the effective date (where the Orkney assets are sold to Pamodzi) or the date on which the sale of shares agreement fails to become of any force.

In consideration for rendering the management services, ARMgold shall pay Pamodzi an amount equal to the aggregate of the net smelter revenues for each production month, less the aggregate of the business expenses for that production month plus value-added tax.
